

There are eight W-2 and CC Data Exchange reports in WebI. These reports show the status of dispositions related to W-2 and Child Care cases for SWICA and out of state unemployment. These reports will continue to run weekly. This will allow agencies to continue to use the reports to track overdue and coming due dispositions within the past 18 months.

We have made some changes to the weekly Data Exchange reports by updating the discrepancies for W-2 and W-2 / CC combination cases based on two consecutive months of wages that exceed 115% federal poverty level. The reports are now in production and are located in the "W-2 Monitoring Reports\Data Exchange" folder in WEBI:
